

What is a 1095-C Form?

The 1095-C Form is used to report health care coverage offered to you in the prior year. It is a reporting document required by the Affordable Care Act (ACA). You are not required to send a copy of the Form 1095-C to the IRS with your tax return, nor do you need it to file your taxes. It's recommended that you keep it with the rest of your important tax information, like W-2s, when you do receive it.
